

Scanning the markets for your investments

onemarkets: A one-stop shop for selected and innovative investment solutions

We continuously scan global markets to identify innovative investment opportunities that truly matter. Through **onemarkets**, we offer a broad and growing range of investment strategies, built on UniCredit Group's expertise and the insights of leading asset managers.

Our **onemarkets funds** portfolios are managed either by UniCredit Group companies¹ or, in selected cases, by carefully chosen and highly experienced asset management partners. Our UniCredit experts closely monitor performance to ensure consistent quality and maintain defined risk-return profiles² throughout market cycles.

Three reasons why **onemarkets funds** are a compelling offer:

CLIENT CENTRICITY

Solutions are built around clients' needs – from conservative to growth-oriented – coupled with a sound advisory approach.

COMPETENCE

Benefit from UniCredit's long-standing expertise – with close monitoring of the funds' performance.

UNIQUENESS

Deliver best-in-class investment solutions – developed in-house or in partnership with experienced asset managers.

¹Fund portfolios are managed by entities that are part of the UniCredit Group, i.e., Schoellerbank Invest AG, UniCredit International Bank (Luxembourg) S.A., UniCredit Invest Alternatives GmbH, UniCredit Invest Lux S.A. and UniCredit Invest d.o.o.

²Unless otherwise provided by the prospectus and the KID, the products do not guarantee a positive return or protection against losses.

Our mutual investment funds: A wide and growing range of choices

With our growing suite of **onemarkets funds**, we have identified themes which provide investors with a well-balanced offer of investment solutions in line with their individual needs, risk tolerance, market view and investment horizons.

EQUITY FUNDS

Equity funds invest primarily in equities, i.e. shares in listed companies. Shares are tangible assets that can also protect against inflation. While some funds diversify shares globally, others are more specialised and focus on specific themes, sectors or countries, for example. They generate income through share price increases and dividends. Equity investments expose the fund to the risk of fluctuation of the prices of equity instruments linked to the income prospects of the issuers.³

BOND FUNDS

Bond funds contain interest-bearing securities such as mortgage bonds, government bonds or corporate bonds. They focus on different regions, issuers, currencies, or maturities. They generate income through interest coupons and bond price increases. Bond and debt instruments expose the fund to credit risk and interest rate risk. Interest rate risk is most significant for fixed rate instruments with longer residual maturity.³

MULTI-ASSET FUNDS

Multi-Asset funds combine different investments, for example equities and bonds or money market securities. This allows them to react flexibly to different market situations. Depending on its strategy, the fund may contain more bonds or more equities. Multi-Asset funds are exposed to the risks associated with investing in both equity and bond markets based on the significance of each of these two components on the fund's portfolio.³

SOLUTION FUNDS

Solution funds are tailor-made investment solutions that are geared to specific client needs – for example, capital protection or security. They pursue clearly defined strategies to efficiently achieve investment goals.³

ONEMARKETS FUNDS AS PART OF UNICREDIT'S INVESTMENT UNIVERSE

onemarkets funds are an essential part of UniCredit's investment universe. UniCredit defines the investment strategy and conceptualises the funds in cooperation with well-known fund companies.

UNICREDIT

- Definition of investment strategies
- Close monitoring of quality and risk-return profiles
- Funds managed by UniCredit Invest Lux S.A., a fully-owned subsidiary of UniCredit International Bank (Luxembourg) S.A., or by Nova Investment Management Limited, a partnership between Azimut Holding S.p.A. (Azimut Group) and UniCredit S.p.A.⁴

ONEMARKETS FUNDS INVESTMENT MANAGERS

³ For a full description of risks please refer to the Prospectus of the respective Fund, available at <https://www.invest.unicredit.lu> (for **onemarkets Fund**) and www.novainvestment.ie (for **onemarkets Italy**).

⁴ **onemarkets Fund** is a SICAV (Société d'Investissement à Capital Variable) established under Luxembourg law and managed by UniCredit Invest Lux S.A., whereas **onemarkets Italy** is an ICAV (Irish Collective Asset Management Vehicle) established under Irish law and managed by Nova Investment Management Ltd.

⁵ Fund portfolios are managed by entities that are part of the UniCredit Group, i.e., Schoellerbank Invest AG, UniCredit International Bank (Luxembourg) S.A., UniCredit Invest Alternatives GmbH, UniCredit Invest Lux S.A. and UniCredit Invest d.o.o.

Our Alternative strategies

Through **onemarkets Alternatives**⁶, professional and retail investors gain access to proprietary UCITS, Private Market and Hedge Fund solutions. Built on the expertise of UniCredit and leading international Asset Managers, these funds offer a selection of strategies designed to open up differentiated sources of return beyond traditional markets and expand UniCredit's internal product universe.

Illiquid and semi-liquid alternative strategies – such as Private Equity, Private Debt and Real Assets – focus on private markets and long-term value creation. On the other hand, they are exposed to risks related to liquidity, valuations, and capital loss. They are suitable for informed investors who have understood the risks associated with the fund and are able to commit capital over longer periods in exchange for potentially higher long-term returns and diversified performance drivers.⁷

Our ETFs: Efficient, transparent, sustainable

The new **onemarkets ETFs**⁸ (Exchange Traded Funds) combine UniCredit Group's market expertise with the portfolio management capabilities of BNP Paribas Asset Management. They offer broad and efficient access to key global equity markets as well as European government and corporate bonds – even with small investment amounts. The ETFs follow MSCI Universal indices, ensuring a transparent and easy-to-understand investment approach with daily tradability.

Benefit from UniCredit's long-standing competence and ESG-integrated strategies⁹, designed to meet a wide range of client needs – from conservative to growth-oriented.

⁶“**onemarkets Alternatives**” is UniCredit's range of innovative investment strategies. When implemented within the investment policy of UCITS, these strategies comply with the requirements on asset eligibility, risk limits, liquidity, diversification, and the use of derivatives applicable to this type of fund.

⁷For a full description of risks please refer to the Prospectus of the respective Fund.

⁸**onemarkets ETFs** are issued by onemarkets Lux, a SICAV (Société d'Investissement à Capital Variable) established under Luxembourg law and managed by UniCredit Invest Lux S.A.

⁹The decision to invest in the fund should take into account all the characteristics and objectives of the fund. There is no guarantee that ESG considerations will enhance a fund's investment strategy or performance.
